PRESIDENT WILSON IS SPEEDING WEST

(International News Service.)

Pittsburgh, Oct. 4.—President Wilson's special train pulled into Pittsburgh this morning at 7:35 and remained in the union station until 9:15 o'clock.

The special train of three coaches and a baggage car was attached to the regular Chicago train for the trip westward at 9:15. A small crowd was at the depot to greet the president, but the blinds of his car were closely drawn.

TREMENDOUS OVATIONS ARE GIVEN PRESIDENT.

(International News Service.)

Alliance, Ohio, Oct. 4.—President Wilson appeared on the train platform here as he sped through Ohio today en route to Omaha, but he made no speech. He was greeted by a cheering throng which clamored impatiently for a speech, but the president smilingly declined to make one. The schools were closed in honor of the president's visit and hundreds of children were in the crowd. The president let it be known today that he would announce the members of the eight-hour commission either today or Friday.

The president went back on his determination not to say anything when the train passed through Canton, O. He was given such a rousing reception that he walked to the edge of the platform and said:

"I am not making speeches, but it is extremely cheering to be greeted in such a way. It is the kind of hospitality to make a man's heart warm. I appreciate it and I wish you all sorts of good luck."

Then as the train was about to pull out, he said:

"Give my regards to the senator." Senator Atlee Pomerene lives at Canton.

PATTERSON NAMED MEMBER OF DEMOCRATIC CAMPAIGN COMMITTEE

A. G. Patterson, well known local citizen, has received notification of his appointment as a member of the democratic state campaign committee. Notice of the appointment came from Gen. Bibb Graves, chairman of the democratic state executive committee, who was authorized at a meeting held at Montgomery on September 15 to name a campaign committee to look after the interest of the party at the approaching election.

Borden Burr, who was appointed by Gen. Graves as chairman of the campaign committee, has called a meeting for Saturday noon at Birmingham at the Tutwiler Hotel, which Mr. Patterson will attend.

In addition to looking after the interest of the national ticket, the campaign committee will also lend assistance to the party candidates in a number of counties where there is a big republican vote, notably Walker and Shelby. It will also help to straighten out the tangle in Bibb county, where two democratic tickets are in the field.

Mr. Patterson is one of the two members of the state democratic executive committee from the Eighth congressional district, the other member being Judge J. C. Kumpe of Moulton.

London, Oct. 4.—A violent battle is raging all along the far flung battle line in Roumania, from the region west of the fortress of Turtukal, south of the Danube, to the Black Sea.

Upon its outcome depends, in the opinion of military critics here, the success or failure of the whole Teuton Balkan campaign.

All reports from the Roumanian front agree that the initiative is in the hands of the Russo-Roumanian forces.

Interest is chiefly in the Roumanians, who have crossed the south bank of the Danube south of Biharest, and the Bulgarian forces protecting the Varda railway. Bitter fighting is reported.

Y.M.C.A. Night School Begins 1916 Term

With Prof. J. T. Carter as leader and H. L. Turner presiding over the meeting, a night school was organized for employed men and boys, at the Y. M. C. A. last night. A good number of students were enrolled. Dr. John A. Pool, a graduate of Mercer University, and a teacher of successful and wide experience, was chosen as head master. Dr. Pool made the men an enthusiastic speech on the possibilities of night school work. He agreed with Mr. Carter that "it must be made to go—that there must be no 'calf rope' to catch to," but every one must do his fully duty.

The proposed night school for girls and women is under the direction of Miss Clutie Bloodworth, and she will be ready to report on the progress of her school in the course of a few days, according to a statement by Professor Carter.

TWO KILLED AND 52 INJURED IN CLEVELAND WRECK

STREET CARS COLLIDE AND BREAK THROUGH BRIDGE FOR 30-FOOT FALL.

(International News Service.)

Cleveland, O., Oct. 4.—A complete canvas today reveals a loss of two lives and injuries to 52 persons as a result of the accident which for a time late yesterday was believed to have exacted a toll of over a hundred.

Conductor Otto Borchert lost his life trying to stop the car after his motorman had failed and jumped. The other victim was Mrs. Clara Dill, 45, a passenger.

The collision was between two street cars on the West Third street bridge. The force of the impact caused the bridge to collapse and the cars fell 30 feet to the tracks of the Baltimore and Ohio railroad and came to rest on the tracks.

The accident occurred when a south bound Scranton road car carrying a crowd of women shoppers home at the rush hour broke away from the motorman on a hill approaching the bridge, and tore down upon the structure just as a north bound car reached the same point. The runaway car jumped the track and struck the north bound car. The combined weight of the two cars and the shock of the collision was too much for the wooden bridge, which sagged and fell.

ATLANTA OFFICIALS SAY STRIKE IS A FAILURE.

(International News Service.)

Atlanta, Ga., Oct. 4.—Declaring that the street car strike is a failure, officials of the Georgia Railway and Electric Company today stated that everything was quiet. Service this morning was normal. There was no disorder.

COUNCIL FAILS TO ADOPT RESOLUTION CALLING ELECTION

ALBANY ALDERMEN WILL NAME CITY OFFICIALS MONDAY NIGHT.

The new council of Albany did not adopt a resolution last night calling a special election Saturday to choose two policemen, a sanitary officer and a convict guard. The resolution was not presented to the meeting and no mention was made of it. Aldermen who proposed to father the measure evidently thought it could not pass.

The council at the meeting last night, however, set next Monday night as the time to name the four officials of the city.

All the aldermen were present last night except Alderman J. A. Tidwell, who was absent because of illness in his family. Jack Dillehay was named president-pro tem of the council by unanimous vote.

JOINT COMMISSION IS FACING SURE FAILURE, REPORT

AFTER MONTH OF INTERMITTENT SESSIONS NOTHING HAS BEEN ACCOMPLISHED.

(International News Service.)

Washington, Oct. 4.—Officials high in both the state and war department today predicted that the efforts of the American-Mexican commissioners are now doomed to failure. For the first time since the commission met a month ago officials disclose their pessimism.

The shifting of the scene of the deliberations to Atlantic City served to make pertinent the query: "What is the end accomplished after a month's of intermittent sessions?"

An official answer to the question is not forthcoming.

The visit of Ambassador Designate Arradondo to Mexico City has been without result.

The proposed educational amendment to the constitution of Alabama was endorsed by the Muscle Shoals Baptist association in the following resolution:

"Whereas, the State of Alabama stands at the top in the galaxy of states alphabetically, and almost at the bottom educationally, and

"Whereas, the last legislature submitted to us an educational amendment to the constitution, giving us the

privilege to vote this addition to the constitution, therefore,

"Be it resolved, That this association go on record as endorsing this educational amendment, which means so much to the boys and girls of the state, and if it passes in November, will give the people of the different counties a right to levy a tax on themselves for better school facilities."

A PROPHET'S VISION.

Back in the Biblical days there were prophets and seers who foretold coming events with accuracy. Far back in the past, too, the oracles gilded their trade with varying degrees of success. Sometimes they went wide of the mark, but usually by ambiguity of language and indefiniteness of promise they managed to make their clients believe in their infallibility. Today we have only the fortune tellers, a modern brand of parasite that for the most part plays upon the credulity and the inherent superstition of mankind. "Gypsy queens" romancers and necromancers of strange and uncouth garb can usually find a paying audience if they work diligently at their trade. The Weather Man, of course, is only a scientific guesser and is not expected to always read even the immediate future with exactness.

There is another kind of prophet—the man of astute mind and excellent mental equipment who by the cold processes of reason can foretell coming events. To this class belongs Mr. A. N. Woodall, a modest farmer and one of the oldest residents of the county. In an interview published in yesterday's Daily he told of his predictions of fifty years ago that some day a great city would be built upon the Tennessee at the present site of Albany-Decatur. He was a prognosticator of the first rank, for he took into consideration the many natural advantages that were working in behalf of the location that he had selected—and he could not lose.

Today it requires no prophet to foresee the ultimate destiny of Albany-Decatur. The cities must grow into a metropolis. To do this more quickly they should be united. But whether united or not, they are bound to grow in commercial greatness, until their fame is heralded abroad throughout the world as models of enterprise and growth. The location of the \$20,000,000 nitrate plant at Muscle Shoals will make their future more certain, for it will bring with it cheap power for factory sites and cheap fertilizer for the development of the farm lands. However, the one prime essential to city growth is local enterprise, the development of a "never-say-die" spirit that will make this North Alabama municipality reach out for new industries. Only this spirit is lacking to make the prediction of Mr. Woodall come true.

MOULTON'S WATERWORKS.

They had a little fire over at Moulton the other night and had an opportunity to try out the new waterworks. The plant responded to the occasion, and what might have been a disastrous conflagration was nipped in the bud. Moulton is to be congratulated on its recent improvements. It is becoming a real wide-awake little city, and with an electric car line to Albany-Decatur would assume still still more metropolitan proportions. Over here in the Twin Cities we note Moulton's growth with real pride, for there is no section more friendly to Morgan county than the neighboring county of Lawrence, from which many of our best citizens came, and where nearly everybody's kin folks live.

Hartselle should profit by the example of Moulton and build some waterworks of its own. Our neighboring city is one of the best of its size on earth, and ought to keep step with the times. Its "bucket brigade" is the most effective fire-fighting machine of its kind in existence, but some of these days it will prove inadequate to the demands made on it, and a town that has been years in building may be wiped out in a day. Then, too, a municipal water supply is a most valuable thing to have around on many occasions.

HENRY FORD'S SUPPORT.

I am for Wilson because he is onto the interests—the "unseen hands" that seek to control government—and his holding them off is proved by his refusal to rush into war with Mexico, sacrificing the lives of thousands of young Americans to save the dollars that Wall street has invested in Mexico on a gamble.—Henry Ford.

Now that was said like a man. Above all other characteristics of Henry Ford is his admirable frankness and his charming candor. For years he followed the phantom of Roosevelt. He believed in him and he believed in the doctrines of progressive republicanism. When Roosevelt turned his back on the men he had led out of the republican party and when the party again returned to its naturally reactionary tendencies, Ford came square out for the democratic nominee for president. His mind is not so blinded by prejudice or his judgment so obscured that he cannot see the coolly calculated interests behind the talk of war with Mexico. He is in a position to realize that the president coldly turned his back on Wall street and listened rather to the mothers of the land when he refused to send American boys into Mexico on a war of conquest and greed.

Ford is right. The president is just the man to fight the forces of invisible government. For the people to take him away from his task at this crucial time would be like the inhabitants of a city surrendering the keys of the gates to the hostile hosts. They would be giving their consent for themselves to be looted and pillaged on the high altar of protection and special privilege.

The resignation of Jondge Toulmin from the federal bench affords President Wilson the opportunity to appoint a United States judge for the Southern District of Alabama. Judge Toulmin occupied the bench for nearly thirty years, his term bridging the chasm from Cleveland to Wilson. He has served with distinction and honor and his successor should be a man of the highest calibre. No broken down politicians should be considered for the place.

The allies claim that they have already captured two German merchant submarines by the names of "Bremen," and that a third is still afloat. Cute idea of the Germans to announce the sailing of a Bremen and then claim credit for its safe arrival the first time any of the convey made an American port. Wonder how many "Deutschlands" there were.

A little town down near Demopolis has changed its name to "Alfalpa." Now look out for a crop of statestmen. The first man to grab the sobriquet "Alfalpa BHI" is sure of a seat in congress.

"Birmingham will be able to live inside her income," headlines the Birmingham News. Yes, but can the Magic City live inside her outgo?

The world's series begins Saturday. Until then try and be content with such minor excitement as the European struggle can furnish.

A French girl has volunteered to give an eye to any blind soldier that can use it. Most of the veterans would prefer her hand.

Throngs Flock to the Midway Which is Always a Big Feature of the Alabama State Fair

CROWDS ON THE MIDWAY AT THE ALABAMA STATE FAIR

Oh, the corn, and the cotton, and the pumpkins, and the fruits and vegetables—and the exhibits of art work, machinery, farm products and mining wonders—the woman's department and the commercial exhibits—the merchants and manufacturers booths, at the State Fair in October, 5 to 14, at Birmingham. Oh, it's going to be a great time—and the best place on earth to meet some one that you have not seen for a long time, for they will all be there to witness the great stunts that will call for premiums and purses of approximately \$50,000 to the lucky ones, the industrious ones, and the meritorious ones.

Think of the big days—as well as nights—of solid enjoyment, wonderful educational advantage of seeing your State on "Dress Parade," and then having the time of your life seeing the "olden day" folk whom you have not seen in years—for they are all coming to the State Fair in October, in Birmingham. There will be greatly reduced rates on all railroads.

Agricultural, Live Stock and Poultry exhibits alone will call for the distribution of \$25,000 in prize monies, and the exhibits offered in competition for these cash prizes fill several buildings. There will be over 5,000 fowls on exhibition in the Poultry department, all looking for at least a ribbon, and a big number will take down the money. Then, there will be a great display of mining machinery, industrial products, commercial wares, art and science offerings, as well as the original and distinct exhibits of merchants and manufacturers.

The racing card will be a decided attraction this year, it being greater than ever. There will be \$10,000 given the winners in premium money. Then, absolutely FREE, there will be ten big acts daily, for the benefit of the visitors, in front of the grandstand, twice each day, followed in the evening by the enormous Fireworks Display, which is, in simple figures, the burning of \$1,000 each night for the amusement of the spectators. This feature this year will represent the gigantic struggle in the European countries, depicting in fireworks, illumination and display, the massive struggle between the opposing countries.

There will be no end to the fun; no wonder at the crowds when you see what is offered, and the result will be, when you have devoured with your eyes all that is to be seen, that you have been greatly benefited, and will know your own State much better than you ever have before, and be proud of the fact that you are an Alabamian.

THE TWO RIVERS.

O. River of Yesterday, with current
swift,
Through chasms descending and soon
lost to sight,
I do not care to follow in thy flight
The faded leaves that on thy bosom
drift!

O. River of Tomorrow, I uplift
Mine eyes and thee I follow, as the
night
Wanes into morning, and the dawning
light
Broadens, and all the shadows fade
and shift!

I follow, follow, where thy waters
run
Through unfrequented, unfamiliar
fields,
Fragrant with flowers and musical
with song
Still follow, follow; sure to meet the
sun,
And confident that what the future
yields
Will be the right, unless myself be
wrong.

Daily Cotton Letter
(BY J. L. JULIAN.)

An urgent demand for spots has de-
veloped in the south, sales at lead-
ing points yesterday being the larg-
est of the season with prices at the
highest level reached thus far this
year. There was a continuance of
the trade demand today with prices
higher than yesterday. Accordingly
futures advanced to almost the high
levels recorded on bureau day and al-
though there was extensive liquida-
tion, offerings were easily absorbed
by a general demand for contracts.

Washington reports that the use of
cotton fibre in the manufacture of ex-
plosives, considerably more was used
up to June 30 than during all of
1915—287,713 bales for first six
months of this year vs. 244,003 for
whole of last year. The increase in
stocks at 13 interior towns for the
half week was not as large as gen-
erally expected, 58,000 vs. 47,000 last
year, shipments being heavier than
looked for—119,000 vs. 85,000 last year
denoting that the cotton is moving fast
to the ports.

STRIKING CARMEN PLAN BIG
DEMONSTRATION UNDER CHARGE

"Mother" Jones, prominent in many strikes throughout the country, will be a leading figure in the movement. A meeting will be held tomorrow at which plans will be arranged for a parade early next week. It is expected at least 3,000 women will march through the streets.

Great Enthusiasm At Cates Meeting

The Cates meetings of last night and Monday night gave evidence of great enthusiasm and deep conviction on the part of the new converts. "And He Was Speechless," was Mr.

Cates' text last night. The expression used having reference to the man in the Bible who refused the wedding garments provided by his host.

The number of converts made last night was away above the average of the previous meetings.

AMUSEMENTS

Owen Moore and Marguerite Courtot in a Picturization of "Rolling Stones" at the Star and Delta Wednesday.

It is very true that "A rolling stone gathers no moss"—but as Buck Ryder sagely remarked to Dave Fulton, "Who wants to gather moss?" And they are the boys who ought to know all about the subject for they are the "Rolling Stones" in the Famous Players Film Company's photoplay adaptation of Edgar Selwyn's celebrated play of that name in which the two great screen favorites, Owen Moore and Marguerite Courtot, are the co-stars.

Owen Moore as Dave, and Marguerite Courtot as the—well, not the moss, but the human obstacle that prevents him from rolling any further down hill. Of course he is only a rolling stone in the sense that he has not yet found himself, for the boy is not in the least vicious at heart and when he meets this delightful little girl, Norma, she at once arouses all that is best in him.

When the play was produced on the stage it was declared by the metropolitan critics to be one of the most delightful combinations of laughs and thrills that has been seen for many a season. In its motion picture form it is even more amusing.

FILM VERSION OF REX BEACH'S MOST FAMOUS STORY.

The Film Version of Rex Beach's "The Ne'er-Do-Well" Will be Shown at the Masonic Soon.

The picture was produced by the Selig Polyscope Company of Chicago, and is one of the most remarkable moving pictures ever staged. Although it takes fully two and one-half hours to run, there is not a scene that could be eliminated without detriment to the continuity of the picture.

The acts are swift and full of incident, the exciting episodes numerous; and the tension does not let down in between times, as is the case with most pictures that we see on the screen.

A large and complete cast is headed by Kathlyn Williams and Wheeler Oakman, and the entire company which made "The Spoilers" famous.

In order to acquire the requisite atmosphere, the entire company spent several months in Panama, and the result has proved well worth the trouble and expense.

The exterior scenes are striking and beautiful, and at all times there is the interest of a strange country, people and customs.

"FAIR AND WARMER."

One of the most brilliant and widely heralded attractions of the coming season here will be Selwyn & Company's presentation of their farce sensation, "Fair and Warmer," which made such a striking success during the year of its run at the Eltinge theatre, New York, that it has a national reputation before the end of its first six months.

"Fair and Warmer" is the latest farce by Avery Hopwood, who also wrote "Seven Days" and "Nobody's Widow," and whose indisputable gift of making ludicrous situations, built around delightful and humorous people, who have a fund of brilliant lines, has never been better exemplified than in "Fair and Warmer."

Selwyn & Company have established themselves as "pickers of winners" by their production of "Within the Law," "Under Cover" and "Twin Beds," and in "Fair and Warmer" they have so worthy a successor to "Twin Beds" that they call it their second annual laugh festival.

President to Name Federal Judge For the Alabama Bench

Mobile, Oct. 3.—After serving as judge of the federal court in the southern district of Alabama for almost 30 years, Judge Harry T. Toulmin announced from the bench here today that he would retire on December 1. His health, he said caused him to take this step. He tendered his resignation to President Wilson today.

On opening court Judge Toulmin reviewed his services on the federal bench. He had hoped, he said, to round out 30 years as judge of the district, but declared he would be forced to retire on December 1, one month less than 30 years. He was appointed on January 13, 1887, by President Cleveland.

Athens News

Mrs. R. M. Rawls is in New Orleans attending the pre-nuptials of Walter Rawls, formerly of Athens, but now stationed at New Orleans, and to be married this month.

The fair has opened in a blaze of glory and promises to be as good, if not the best, of any held in Athens. The grounds are very much improved, and the stock sales of two days will be well worth while, as there are a fine lot of cattle to be sold.

The public school has just closed its first month with 230 pupils enrolled.

IN A CAPTURED GERMAN TRENCH

In the recent British advance on the western front the British captured many German trenches of unusual construction. The trench shown here is evidently a product of German efficiency as shown by the ready-made steel guards. Hugely as the British soldiers shown are enjoying themselves, they have not neglected to don their steel shrapnel-proof helmets.
